

U-3

THE PRESTIGE OF POWER / **CASE** GARDEN TRACTORS

Case 190 / 12 hp, Hydra-Static Drive

Case 120 / 10 hp, Mechanical Drive

Three ways to indulge your taste for excellence in a garden tractor without breaking the budget

Each is named Case. Each boasts a tough new breed of power giving you the authority to tackle most any task. The 120 and 150 pack 10 horses under the hood. There's a full 12 in the 190. Sheer horsepower isn't all the story. You have a choice of mechanical drive or Hydra-Static Drive, the revolutionary hydraulic drive system that eliminates bothersome clutching and shifting. That rugged bulldog look isn't just for show . . . it's backed up with a heavy-duty front axle and deep channel frame. Quality throughout. In the design, in the engineering, in the outstanding warranty. Your judgment is invited. Test drive a Case.

Case . . . the name of quality in agricultural and construction equipment for over 124 years.

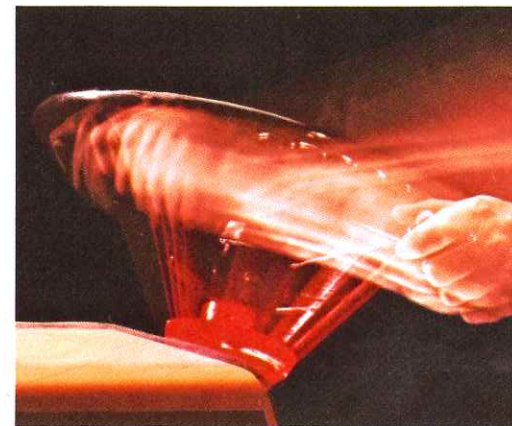

Case 150 / 10 hp, Hydra-Static Drive

Revolutionary Hydra-Static Drive gives you maximum work power at any speed

Hydra-Static Drive is the most advanced drive system on a garden tractor today. It is a standard feature of both the 150 and 190. A single lever controls forward and reverse with an infinite selection of speeds. Hydra-Static Drive eliminates clutching and shifting. You maneuver easier. Get jobs done faster. Regardless of travel speed, full engine power is always delivered to attachments. You go when the going's roughest . . . have pep and agility for clear sailing. The hydraulic unit is driven directly by the engine, no chains or belts.

Hydra-Static Drive rifles full engine power to attachments. Velvet-smooth operation is the result whether you're climbing a hill, in the rough or zipping along in the clear.

SPEED CONTROL LEVER — Infinite speed selection in forward and reverse. Steering column mounted for convenience and safety. Neutral is at center. Forward and reverse speeds are to either side of neutral.

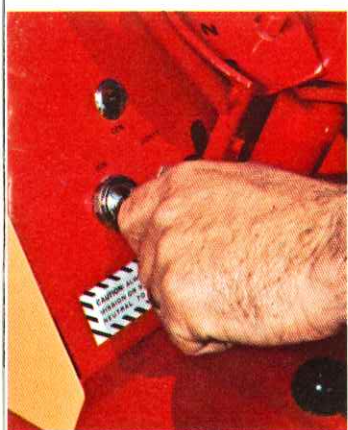

HYDRAULIC FOOT BRAKE — Standard equipment on Case models 150 and 190. Instant braking. Depresses to lock transmission hydraulically. Special latch locks foot brake for use as parking brake.

Case 120 Mechanical Drive with 4-speed transmission and creeper gear

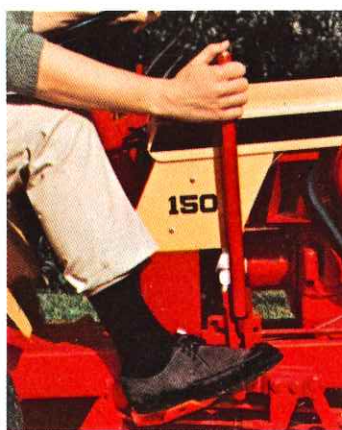

The all-season tractor built with rugged dependability and all the engineering precision Case is famous for. Full 10 horsepower capabilities to do the tough jobs . . . mow grass, plow snow, doze dirt and gravel . . . plow, plant or cultivate with ease, speed and comfort. Four speeds forward, one reverse. Transmission is equipped with a special one-half-mile-per-hour creeper speed for slow, precision jobs like grading or snow blowing. Loaded with standard equipment features. 12 month warranty with no hour limitation.

These are all standard features on Case garden tractors!

12 VOLT KEY START — Heavy duty starter and generator for fast starts at turn of key. Control arm at lower right operates automotive type attachment clutch.

NEW ATTACHMENT LIFT LEVER — Operator dials desired cutting depth. Attachment holds free-float position, eliminating danger of scalping. Cutting height adjustable 1¼-3½".

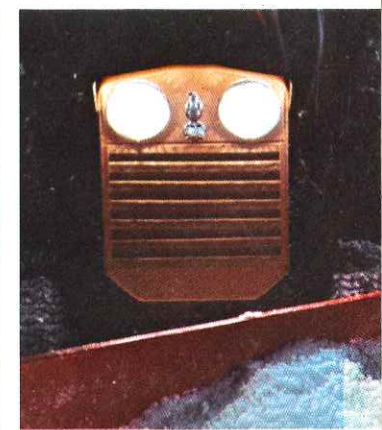

DELUXE CONTOURED SEAT — And back rest, foam padded. Full fenders are standard, too. HI-LO SPEED RANGE lever matches ground speed to job on models 150 and 190.

EASY-OPEN HOOD — Easy access to engine, gas tank and battery with front hinged hood. **HEAVY-DUTY ENGINE** — Kohler, 4-cycle; Automatic Compression Release for fast starts.

KING-SIZE STORAGE COMPARTMENT — Here's a chest that stretches from fender to fender. Just the place for storing tools, wrenches, what-have-you. Lid is piano hinged.

SEALED BEAM HEADLIGHTS — Built right into every Case. Extend hours of use. Notice the extra-strength front end. **RUGGED FRONT AXLE** — cambered king pins, oversize pivot pins.

**Sprint through lawn
care chores and have a
wonderful time doing it!**

With you as master of a Case, it's the fastest way to drive into extra hours of leisure time. You'll do a top-notch job, whether the grounds for your performance are putting-green smooth or country-fair-ground rough. Case rotary mowers with free-floating action and parallel linkage even out highs and lows, prevent bunching and windrowing. Three bladed, center mount rotary mowers are available in 38 and 44 inch sizes. Anti-skip, anti-scalp action. Cyclonic suction design lifts grass blades so they cut evenly . . . sprays clippings in broad pattern.

TIGHT TURN, NEAT TRIM — Instantly responsive steering. Won't backlash. Lets you trim within an inch to keep hand work to minimum clip.

FREE FLOAT, ANTI-SCALP — Mower design, parallel linkage and flexing tractor action combine for uniform job even on ridges, in hollows.

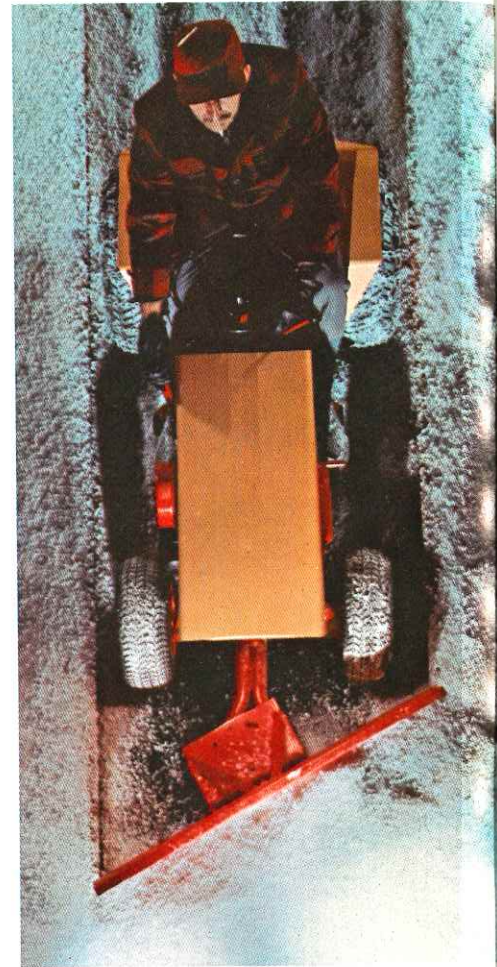

SNOW FALL TO SNOW FREE! With a Case snow blower on your tractor you can clear a two car drive in minutes. 48 inch blower for 12 hp Case 190. 36 inch blower available for Models 120 and 150 tractors. Spout swivels a full 270°. All operations controlled from driver's seat.

All-purpose

**HAUL DIRT, SAND, BLOCKS,
BALES, ROCKS, SHRUBS, FIREWOOD, KIDS.**

You name it. You can haul most anything up to half a ton with this convenient carryall. Heavy gauge steel box. Tailgate may be removed for extra-long objects or to serve as a seat for passengers. 1000 pound capacity. 4.00 x 8 pneumatic tires.

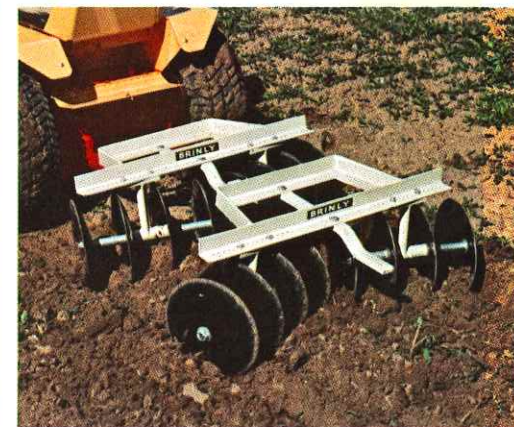

MAKE GRADING, LEVELING, SNOW A PUSH OVER! It's no chore at all to move dirt, sand, snow with a dozer blade and Case tractor power. Two sizes: 44" blade for Models 120 and 150; a big 50" blade for the 190. Blade angles right or left, spring loaded to ride over obstacles. Adjustable shoes regulate height.

versatility from one season's end to the next

DO CASE COMPACTS BELONG DOWN ON THE FARM? Sure thing! Handiest chore boy you'll ever have. It keeps the lawn neat at an acre an hour clip, it's just right for cleaning jobs in close quarters — handles tasks too small for your field tractor, too big to do by hand. Equipped with the optional Power Takeoff kit, a Case compact powers elevators, generators, compressors, front mounted attachments. The PTO is located within the front axle pivot. Includes PTO shaft with pulley.

More power to you for better gardening!

Grow the kind of garden you've always wanted with implements for Case tractors by the Brinly-Hardy Company. L to R, top to bottom ☐ **MOLDBOARD PLOW** — available in 8 and 10' sizes. Rolling coulters. Depth adjustment to 6" ☐ **DISK HARROW** — Basic unit for seed beds. Available with forward disks and rear disk unit ☐ **PLANTER-FERTILIZER** — seeds, fertilizes in one operation. 4 quick-change seed plates ☐ **CULTIVATOR** — adjusts for rows from 6 to 42" wide. 7 reversible shovels.

Case Garden Tractor Specifications

MODEL 120

Engine Kohler, 10 HP
 Drive Mechanical
 Speed Range 0.5 to 6.0 MPH
 Length Overall 66 inches
 Wheelbase 46 inches
 Width Overall 34 inches
 Height Overall 37 inches
 Crop Clearance 7 inches
 Frame Clearance 12 inches
 Fuel Capacity 5 U.S. quarts
 Transmission Capacity ... 4 U.S. pints
 Tires— Front 4.00 x 8
 Rear 8.50 x 12

MODEL 150

Engine Kohler, 10 HP
 Drive Hydra-Static
 Speed Range ... Lo Range 0 to 3 MPH
 Hi Range 0 to 7 MPH
 Length Overall 66 inches
 Wheelbase 46 inches
 Width Overall 35 inches
 Height Overall 37 inches
 Crop Clearance 7 inches
 Frame Clearance 12 inches
 Fuel Capacity 5 U.S. quarts
 Transmission Capacity . . 11 U.S. quarts
 Tires— Front 6.50 x 8
 Rear 8.50 x 12

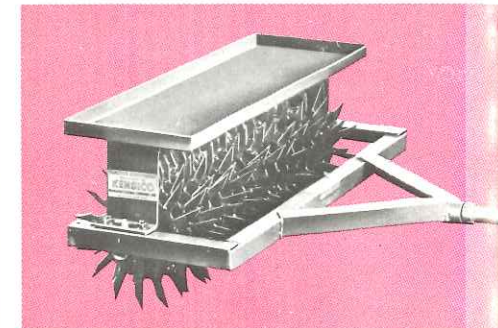

MODEL 190

Engine Kohler, 12 HP
 Drive Hydra-Static
 Speed Range... Lo Range 0 to 2.5 MPH
 Hi Range 0 to 6 MPH
 Length Overall 71 inches
 Wheelbase 46 inches
 Width Overall 40 inches
 Height Overall 41 inches
 Crop Clearance 11 inches
 Frame Clearance 14 inches
 Fuel Capacity 5 U.S. quarts
 Transmission Capacity . . 11 U.S. quarts
 Tires— Front 4.00 x 8
 Rear 8.00 x 16

The J. I. Case Company reserves the right to make improvements or changes in specifications without incurring any obligation to install them on units previously sold.

MOUNTED DUMP CART — Hauls up to 150 lbs. of material. Spring latch release for dumping from seat. Brinly-Hardy Co.

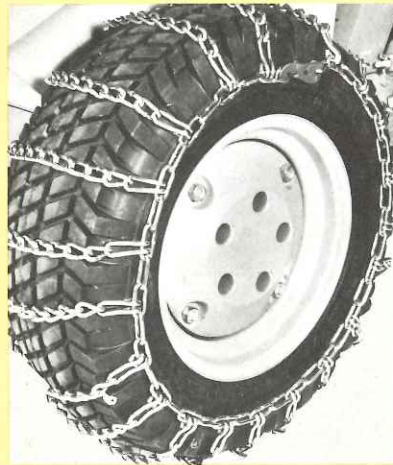

SPIKER-AERATOR — Rejuvenates compacted lawns. 32" coverage. Adjustable for rough or smooth spiking. Weight tray. Kensico Co.

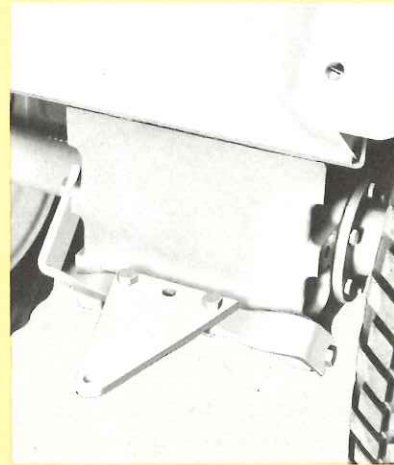

Optional Case Equipment

CHROME HUB CAPS — Fit front and rear hubs. Bright, reflective — dress up your tractor. For tractor Models 120 and 150 only.

TIRE CHAINS & REAR WHEEL WEIGHTS — For added traction on soft ground, snow or ice. For weights, specify Model number and number of bolts in rear hub.

D7 DRAWBAR EXTENSION — Fits all Case garden tractors. Recommended for pull-behind attachments such as lawn roller, spiker and utility cart.

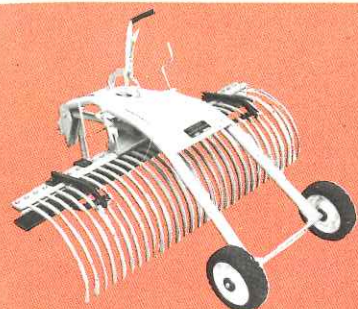

BRINLY-HARDY HITCH — The above hitch is required for all Brinly-Hardy tools. When ordering, specify tractor Model number for appropriate hitch.

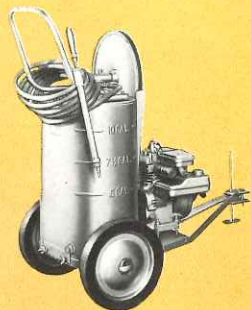

TOOLBAR — Implements bolted to husky bar to make a grader, scarifier, harrow, disk — many others. Available in kits. Brinly-Hardy.

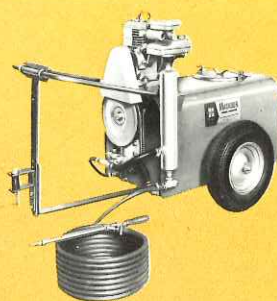

These tools make jobs more fun and increase the versatility of your Case!

SOIL & GRAVEL RAKE — Efficient leveling action, stone removal. Blade may be raised or lowered. 4' and 6' sizes. York Modern Co.

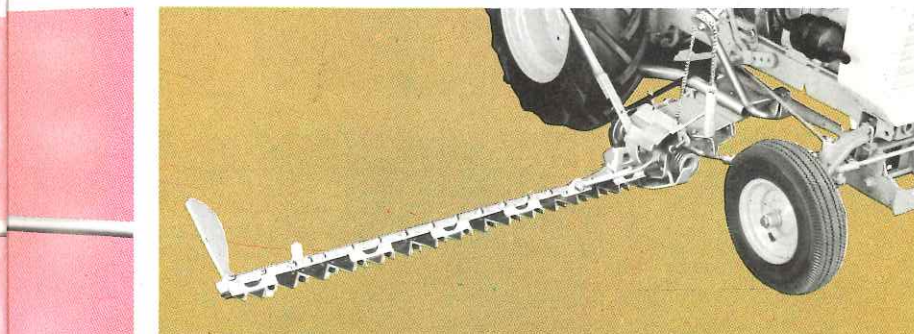

POWER SPRAYER — The *Suburban* on left has 12½ gal. capacity, pressures up to 150 lbs., 1½ gpm pump, 2 hp engine. The 30 gal. *Matador* has 3 gpm output, up to 250 lbs. pressure. Hudson Mfg. Co.

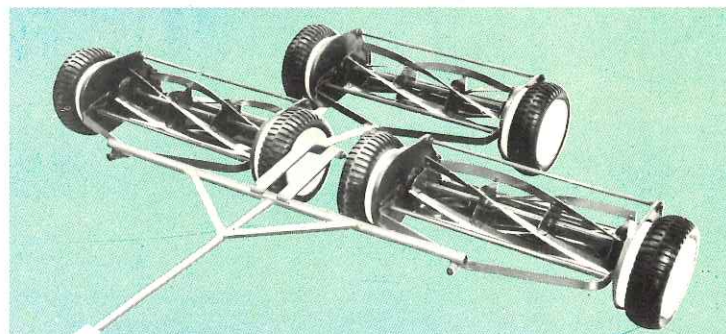

ROLLER — 32" wide. 24" diameter heavy steel drum. Holds up to 500 lbs. water ballast. Kensico Co.

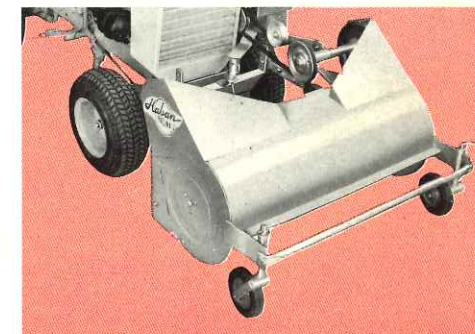

ROLLER BLADE — Broadcasts fertilizer and seed accurately. Scarifies, pulverizes, levels new lawns. 36" wide. Viking Mfg. Co.

SICKLE-BAR MOWER — Cuts heavy grass, rank weeds, light brush. 4-foot swath. High-carbon shear blades. Full floating action. Adjusts from 45° below horizontal to near vertical. Haban Mfg. Co.

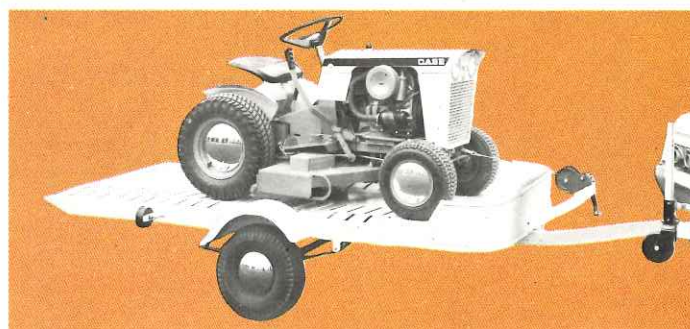

GANG REEL MOWERS — Just the thing for big mowing jobs. 3 gang cuts swath 60" wide, 5 gang — 96". Roxy-Bonner, Inc.

FLAIL MOWER — Pivot mounted flail knives mow, shred, mulch. For rough, problem areas. Won't throw debris. Haban Mfg. Co.

LAWN SWEEPER — Cleans up leaves, grass cuttings as you ride. Dumps from tractor seat. 12, 14 and 42 bushel models. Parker Sweeper Co.

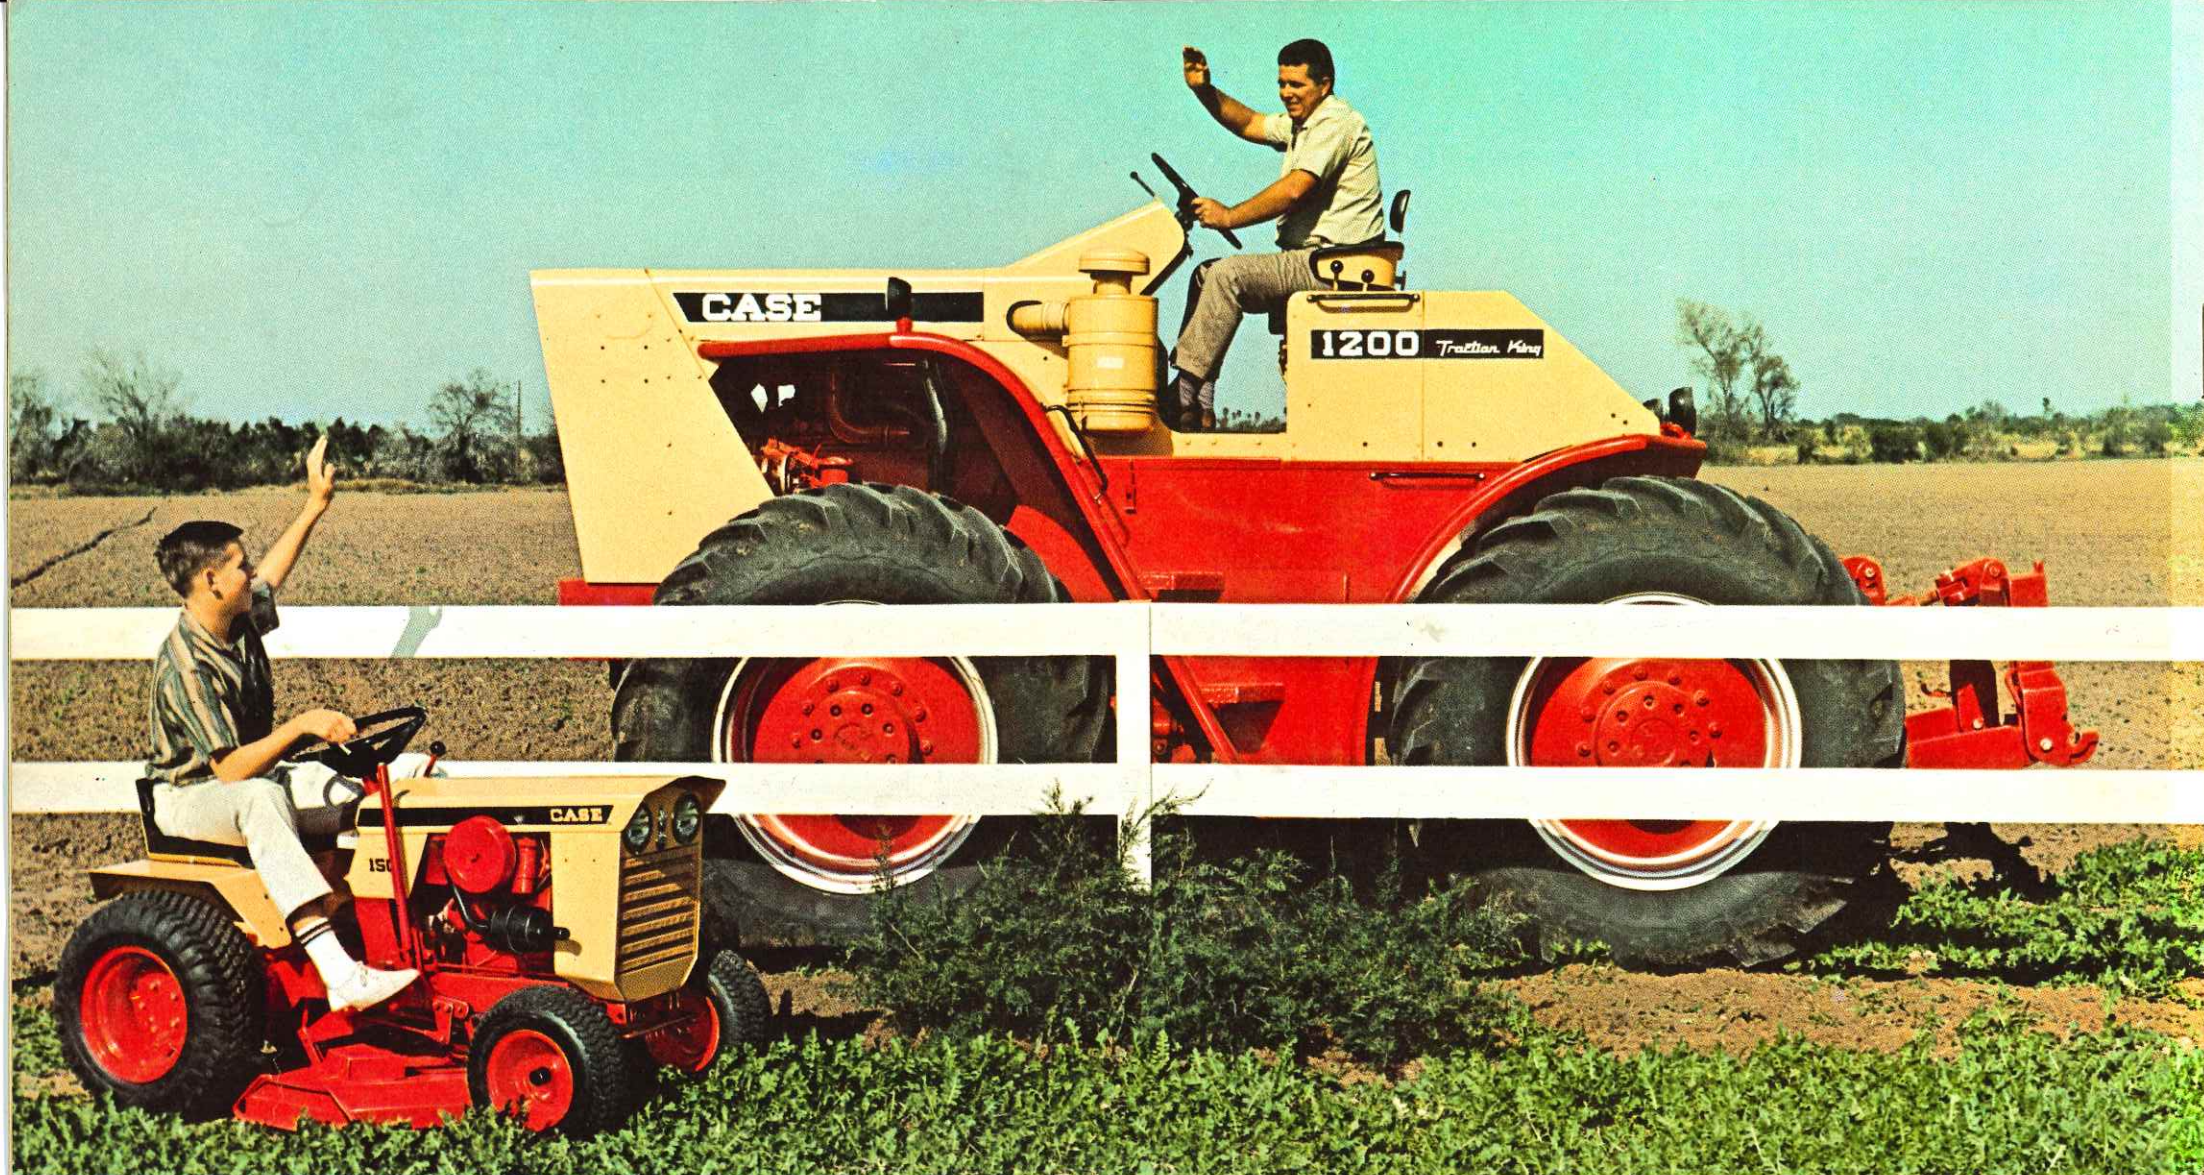

UTILITY TRAILER — Multi-purpose trailer for transporting tractors, other equipment. 48 x 108", tilt flat bed. 1000 lb. capacity. Winch. Lights. Ball hitch. Metalfab, Inc.

ROTARY BROOM — Makes a clean sweep of walks, driveways, parking areas. 4' wide. Angles 31° right. Jenkins Equipment Co.

Implements and attachments shown here are not manufactured by the J. I. Case Company. They are, however, authorized by the company and are available through Case dealers. Performance and warranty of this equipment is the responsibility of the various manufacturers.

**PROTECTED
BY THE SAME
WARRANTY AS
THE BIG CASE
TRACTORS**

Full year...no hour limit

Case garden tractors, just as the Case agricultural and construction equipment tractors, are subject to rigid quality control procedures at every step of production. Small wonder they are warranted with complete confidence ...for 12 months with no hour limitation.
